Sub:- Disseminate the CSIR Innovation Award for School Children-CIASC 2022 regarding announcement

Dear Sir,

In order to inculcate scientific culture among school children, Council of Scientific and industrial Research, Ministry of Science and technology has instituted a competition "CSIR Innovation Award for School Children", to build awareness, interest and motivation for Intellectual property and to support scientific temperament and innovative spirit among school children.

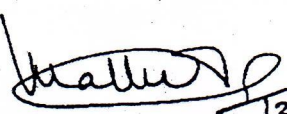

Over the years, various schools have participated in this competition and school children have been awarded. Each year, Awards are conferred by Hon'ble Prime Minister or Hon'ble Minister Science and Technology during Foundation day of CSIR on 26th September. Our experience of the past few years is that very few Schools [Government / private] have participated in this competition. It is expected that more schools should participate which would enrich the school students in their scientific career.

This year, CSIR has announced the competition for year 2022 in the month of January and advertisement was published on CSIR website. In this competition, CSIR would also provide training in IPR to selected meritorious students along with their science teachers. We hope that this would have immense value for both students and teachers.

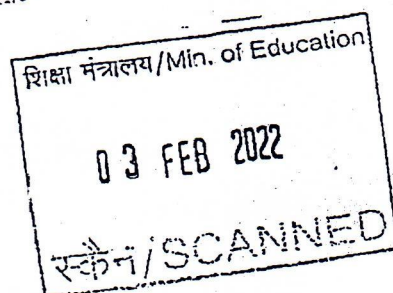

As per mandate of PMO Ad Cell, messaging may also be disseminated at zero cost through web platforms of the other institutions and stakeholders. It is not possible to reach to all schools through advertisement only. It would be possible only if you provide the information to all schools through your own system/website.

Therefore, it is requested to kindly do needful and host the CSIR Innovation Award for School Children 2022 announcement on MHRD platform, so that all schools can get the information as early as possible. Hard copies of English and Hindi version of the advertisement are enclosed for your kind perusal. We would provide soft copies of the advertisement, if required.

Thanking you with best regards

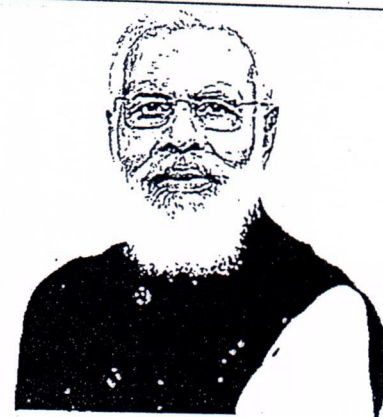

Dr. Vibha Malhotra Sawhney
