DEPARTMENT OF SCHOOL EDUCATION & LITERACY  
SHASTRI BHAVAN  
NEW DELHI-110 115

7319  
03 MAR 2022

Dated 22<sup>nd</sup> February, 2022

Respected Ma'am/Sir,

Please refer to this Department's D.O. letter of even number dated 23<sup>rd</sup> October 2020, 12<sup>th</sup> November 2020, 13<sup>th</sup> January 2021, 28<sup>th</sup> July 2021 and 8<sup>th</sup> September 2021 (copies enclosed) on the above subject. Reference is also invited to the detailed guidelines on the subject matter, which have already been shared with States and Union Territories by the Ministry of Jal Shakti (Department of Drinking Water & Sanitation). The guidelines are also available online at <https://jalshakti-ddws.gov.in> in the form of a 'Campaign Booklet'.

As you would appreciate, access to clean drinking water has a profound impact on the health, the cognitive abilities and the general well-being of children. The Jal Jeevan Mission (JJM) aims at providing **pip**ed water supply for drinking, toilet use, hand washing, and for cooking of meals. It also provides for grey water treatment and in-situ reuse, and rainwater harvesting in school premises especially in drought prone and water stressed areas. The Mission lays emphasis on functionality of tap connections on a long-term basis and arrangements for its regular operations and maintenance. For this emphasis is being laid on regular water quality monitoring and surveillance at the school level by using "Field Testing Kits (FTKs)", as well as using Chemistry labs of higher secondary schools for water quality testing.

Ministry of Jal Shakti has already requested State Governments/UTs to utilize funds available under National Jal Jeevan Mission in convergence with 15<sup>th</sup> Finance Commission, MGNREGA, Swachh Bharat Mission as well as funds available under various Central and State Government's programmes/ schemes for providing piped water to all the Government Schools in the Country.

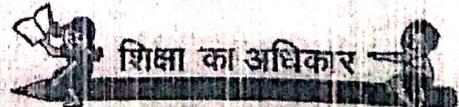

Handwritten notes: 'अधिका DPE', '14/03', 'मिस्ट्री' and 'अधिका'.

Handwritten notes: 'GRT-7/K', '14/03/22'.

Handwritten notes: 'अधिका' and 'मिस्ट्री'.

A tabular statement is also enclosed, showing number and percentage of schools having piped water connections and schools not having piped water connections as per UDISE 2020-21 (provisional) data. The school wise details are available in the UDISE+ portal.

In this regard it is requested to review this issue with the concerned departments and take steps for arranging piped water connection to all the schools which still don't have piped water connection. **A time bound action plan in this regard may kindly be shared with the Ministry within 15 days.**

With Regards,

*Maneesh Garg*
