No. F.3-103/2022-23/DICT/CIET

April 22, 2022

**Sub.: Online Training on "Open Educational Resources (OER) and Licenses" scheduled from 25-29 April 2022, 4:00-5:00 pm– reg.**

Dear Sir / Madam,

As a step towards knowledge sharing and capacity building of teacher, teacher educators and students on Educational Technology (ET) and Information and Communication Technology (ICT) amidst the COVID-19 lockdown crisis and National Education Policy (NEP) – 2020 implementation in the country, CIET-NCERT started organizing webinar and online training/workshops for students, teachers and teacher educators focusing on the use and integration of Educational Technology and ICT in Education.

Open Educational Resources (OER) offer opportunities for sustainable growth in improving the access and quality of education, by enabling the use of learning materials that are free, easily accessible and hold high quality. Paucity of finest teachers and dearth educational resources, in the field of Teaching, Learning and Assessment are key challenges facing the Indian education system. Increasing access to OER can play a big role in helping eradicate these problems, by providing learners with much improved access to quality educational resources.

The NEP-2020 emphasizes for the development of quality eContent in varied forms in all regional languages for a diverse group of learners and to empower students and teacher communities across India. eContent augments the learning experience by deploying various resources for visualization and explanation of abstract ideas. Keeping in view the diverse needs of learners, now use of eContent has become an essential component of the teaching and learning processes. Impact of COVID-19 in the education sector has shown a major shift to the development of digital content in teaching-learning procedures, wherein the platform of DIKSHA has played a crucial role. Open Education Resources (OER) perform vitally in the expansion of eContent, hence fostering the growth of the education sector.

Hence, CIET-NCERT in collaboration with CEMCA-COL is organizing a five-day online training on "**Open Educational Resources (OER) and Licenses**" from **25-29 April 2022** from **4.00 pm - 5.00 pm** to leverage the understanding of teachers, students, teacher educators, administrators, and various stakeholders on the exploration and implementation of Open Educational Resources and Licensing. The online training will be live on NCERT official YouTube channel-<https://www.youtube.com/c/NCERTOFFICIAL> and also be simulcast through PMeVidya DTH TV Channels number 6-12 and Jio TV mobile app. Participants will be required to complete the post-session activity to get the certificate of participation.
