Welcome [Redacted] (SCHOOL USER)

The Student Database Management System (SDMS) is designed to manage and streamline student records across multiple levels. It enables data storage, updates, analysis, and reporting for various educational entities. SDMS supports custom searches and tracking for efficient student information management. Deployed in a federated manner, it integrates data from diverse boards and institutions to provide comprehensive, unified reporting.

**Attention**

Academic Year 2025-26 has started. Please initiate any student-related tasks accordingly

- Users are advised to finish their Progression activities for 2024-25.
- To initiate the progression activity, please navigate to the 'Current Academic year 2025-26' tab, then click on the 'Progression activity' button located in the left menu
